# Enough is enough!

**SAS Cabin crew on strike.**

**NHO Aviation would not meet any of our fair demands for decent working conditions for cabin crew.**

We are striking for:

- A living wage - 168 NOK per hour is too little
- The possibility of family life – we need more than one weekend off per month.
- Dignified working conditions - we want to eat our lunch on the ground, not in the toilet queue.

**Fellesforbundet**

**We regret that the strike affects those of you who are traveling. It is SAS that can resolve this!**

**We are proud cabin workers and demand **decent** conditions!**
